

K-12 Isolation Guidance

If an individual tests positive:

- Should stay home and isolate from other people for at least 5 full days (day 0 is the first day of symptoms or the date of the day of the positive viral test for asymptomatic persons)
- People who are in isolation may return to school on day 6 as long as fever free for 24 hours without the use of fever reducing medications and symptoms have improved
- They should wear a mask when around others at home, in public and at school for an additional 5 days (days 6-10)
- People who are confirmed to have COVID-19 regardless of their vaccination status or symptoms should isolate.
